REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not show the molded header structure in which first and third passageways communicate with second and fourth passageways wherein the second and fourth receive wires that can extend there through. The arrangement allows wires to be passed through the header second and fourth passageways after the molding process has been completed such that the wires may be welded to the block terminals via the first and third passageways.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
